## Summary

As a motivated Fullstack developer, my main focus revolves around utilizing HTML5, CSS3, JS, React, Node and Upper-intermediate level of English to create engaging web applications and interfaces. Currently, I am juggling my studies at college while building my future career in the IT industry. Recognized for my creative mindset, diligent work ethic, and strong interpersonal skills, I am ready to effectively engage with others.

## Project experience

**Studio** - [GitHub](#). My first **individual** project. It's a simple web page with a burger menu on the phone version. [[HTML](#), [CSS](#), [JS](#)]

**Ice cream** - [GitHub](#). Ice company website with responsive layout, burger menu, modal window and attractive design. My section is called - **Advantages**. Role: **Developer**. [[HTML](#), [SASS](#), [JS](#), [Parcel](#)]

**Bookshelf** - [GitHub](#). An application for purchasing or searching for books. It has good-looking design, modal windows, responsive layout, burger menu, pagination, loader and scroll up. My section is called - **Book Modal window**. Role: **Developer**. [[HTML](#), [SASS](#), [JS](#), [AJAX](#), [REST API\(Swagger\)](#), [Parcel](#)]

**Phonebook** - [GitHub](#). My second **individual** project, a Phonebook with a personal account, where you can create, filter and delete your contacts. [[React](#), [Router](#), [Custom hook](#), [Redux](#), [Persist](#), [Mockapi](#), [Material UI](#), [Webpack](#)]

**Healthy hub** - [GitHub](#). Pleasant and user-friendly web page designed for health tracking based on your goals. Featuring intuitive navigation, diverse formulas, and graphics, platform effortlessly helps users monitor progress and make informed decisions. Section - [Dashboard](#). Role: **Scrum master**, **Developer**. [[React](#), [Router](#), [Custom hook](#), [Redux](#), [Persist](#), [react-chartjs-2](#), [Node](#), [Webpack](#)]
